☐ Remember Me

[Forgot Password?](#)

LOGIN

[Create an account](#)

EN

1. Enter the details you entered when creating your new account and click 'Login'.
2. If you want the website to remember you, so that you don't have to login every time you access the site, check the 'Remember me' tick box.

Note: The first time you login you'll be directed to the main summary page. Aramex powered by Fastway and EIZ have a customised solution so there is no requirement to upgrade your package.

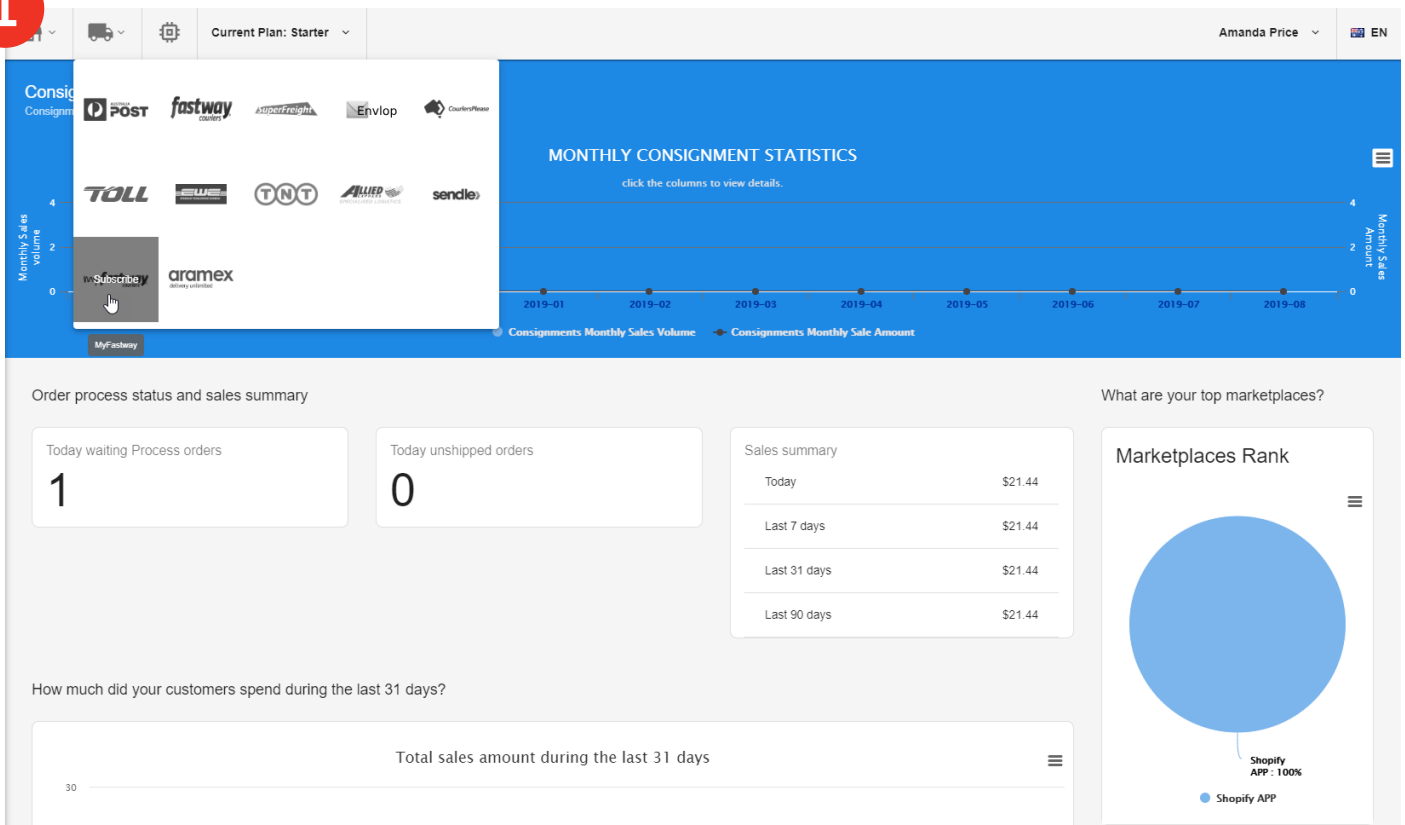

2

The screenshot shows the EIZ Freight dashboard interface. A system message overlay is displayed in the center, reading: "Welcome to EIZ Freight", "Dear Amanda Price,", "Welcome to EIZ.", "EIZ.com.au is an eco-system to provide affordable management technology to small and medium size companies. EIZ.com.au integrates with leading marketplaces, shopping-carts and transport companies, also provide online sellers Easy-Use Order and Freight Management System.", "Your current package is Starter, please use this link for more package details or you can upgrade your package there.", "Upgrade Your Package", "EIZ Team". The background dashboard shows a sidebar with navigation links (Dashboard, Orders, Orders Related, Shipment), a main content area with "Consignments" and "MONTHLY CONSIGNMENT STATISTICS" charts, and a bottom section for "Order process status and sales summary".

Your myfastway account

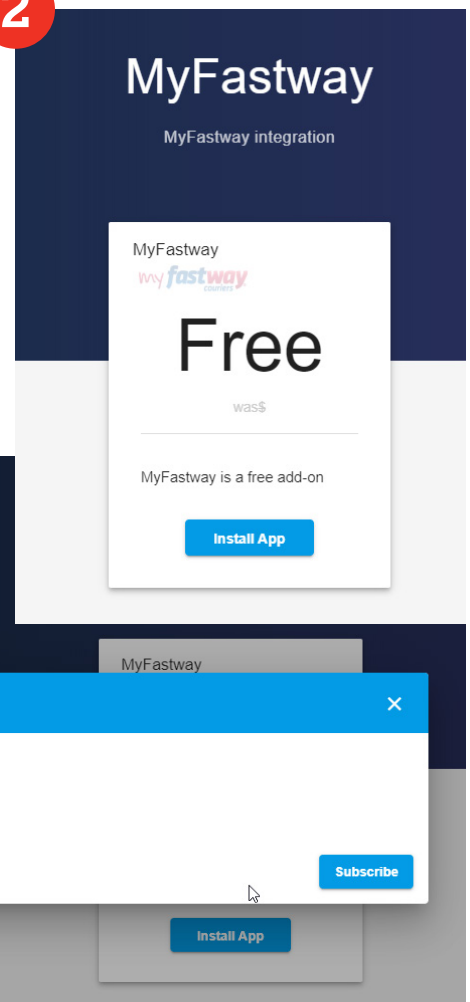

Linking your myfastway account

1

1. Login to the EIZ website and navigate to the delivery truck icon > click on myfastway
2. Click 'Install App'
3. Click 'Subscribe'

TradeVine

Linking your e-commerce platform

1

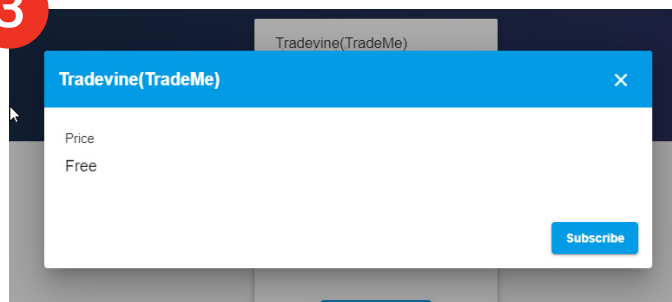

2

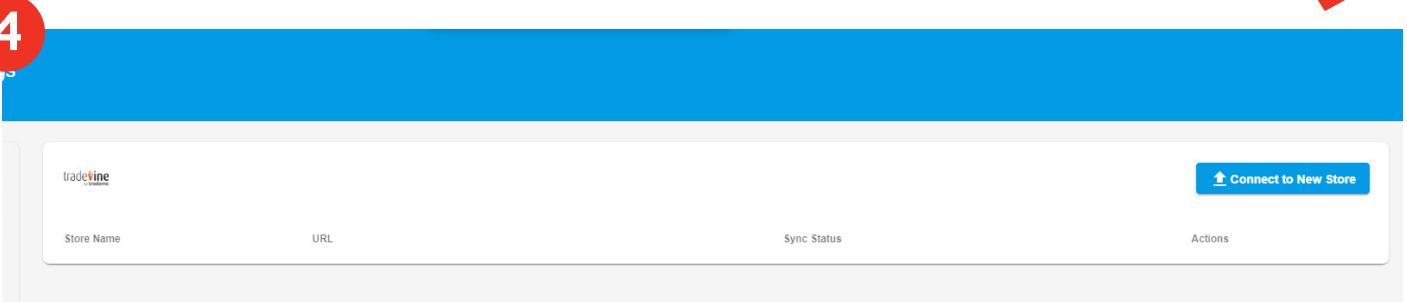

1. Navigate to the shop drop down icon as pictured (above)
2. Click on the Woo Commerce logo from the icons shown. A summary screen will display as shown (right) click on the 'Install APP' button.
3. Click on the 'Subscribe'

4. When the account settings screen is visible, click the 'Connect to New Store' if you don't have your WooCommerce store name, URL, consumer key and secret key, continue to the next step.

3

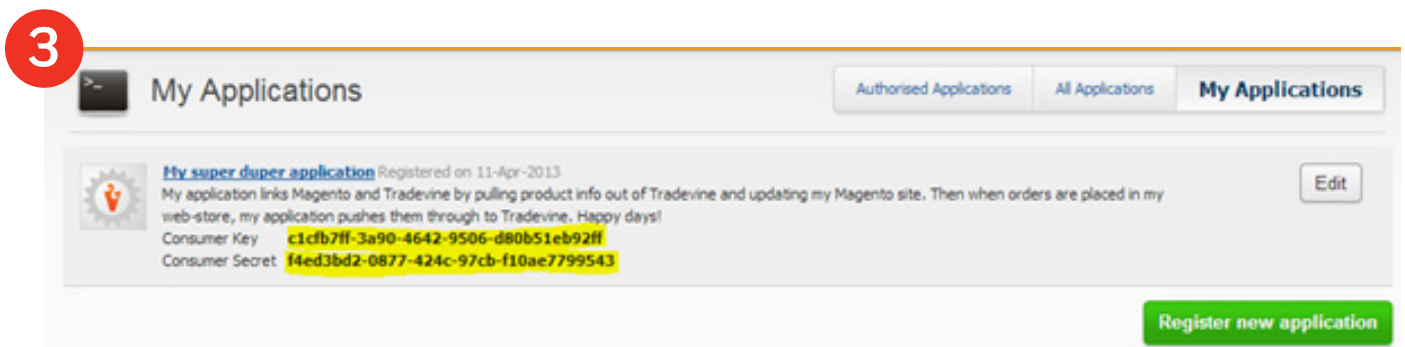

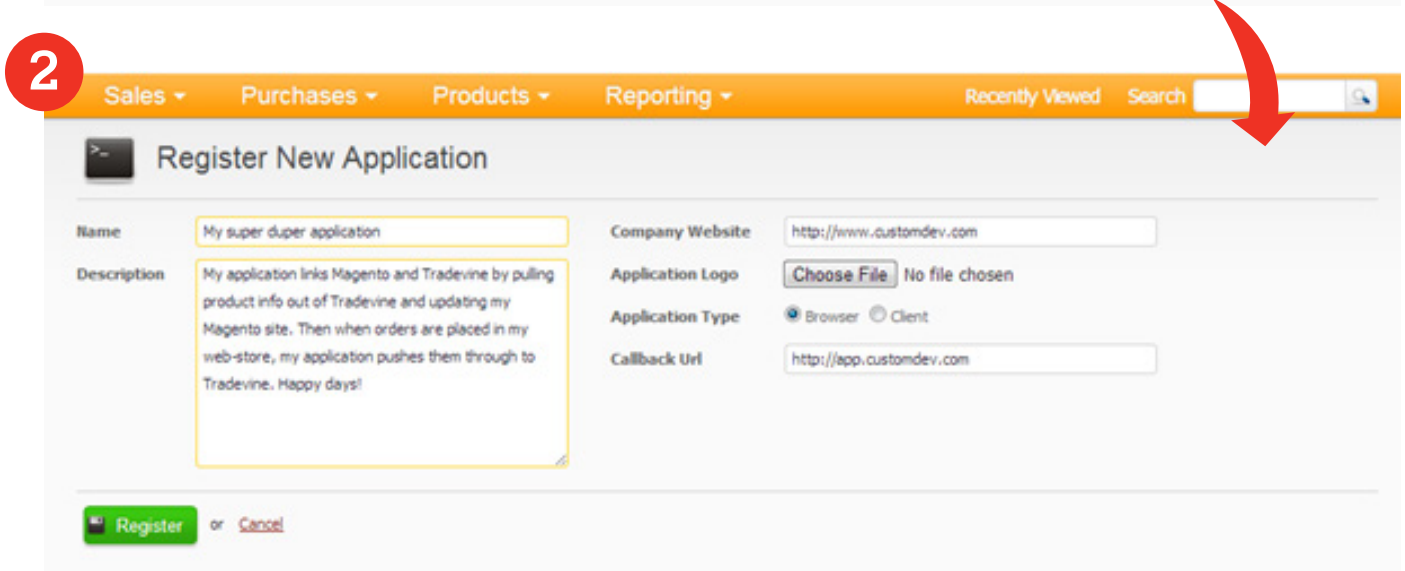

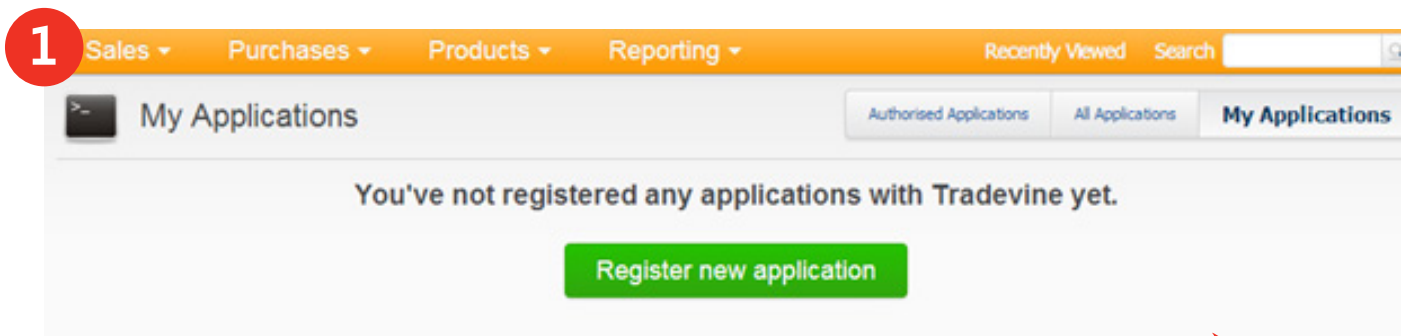

4

Connecting your API key

1. Login to your TradeVine account and navigate to the Applications link and click on 'Register new application'.
2. Enter a name, description and an optional link to your website. You also have the option to upload a logo. Click 'Register'.
3. Make a note of your consumer key and consumer secret, these are required for the EIZ integration.
4. You now have the tools to generate your own OAuth request tokens (once they have been authorised by the application) and access token key/secret pairs for your TradeVine user. You can also manually generate access tokens by clicking the 'All Applications' link.
5. Click on the 'Allow' button, this authorises that application to access your TradeVine account.
6. Make note of your access token and token secret, these are required to complete the integration.

4

All Applications Authorised Applications **All Applications** My Applications

 **My super duper application** Registered on: 11-Apr-2013
 My application links Magento and Tradevine by pulling product info out of Tradevine and updating my Magento site. Then when orders are placed in my web-store, my application pushes them through to Tradevine. Happy days!

Syncing transactions

Syncing TradeVine transactions to

1

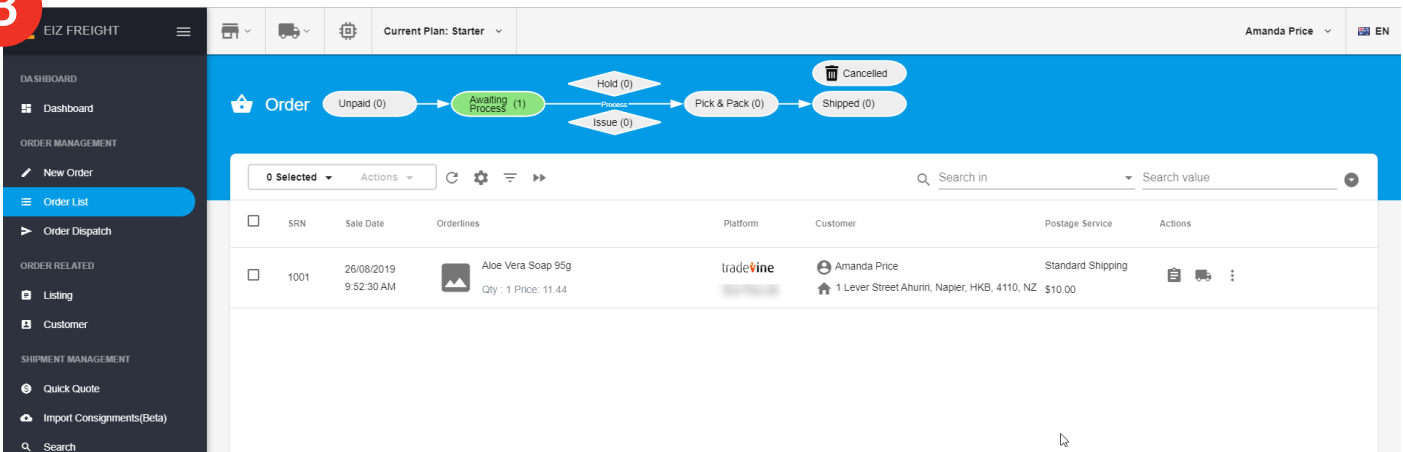

2

1. Once you've linked TradeVine to your EIZ account (refer page 5) you can enable the order sync function to pull through your unfulfilled transaction list.
2. To enable the transaction sync, simply enable the slider so that it turns blue. The sync will occur automatically.
3. Your transactions will appear in the Order List as shown (below).

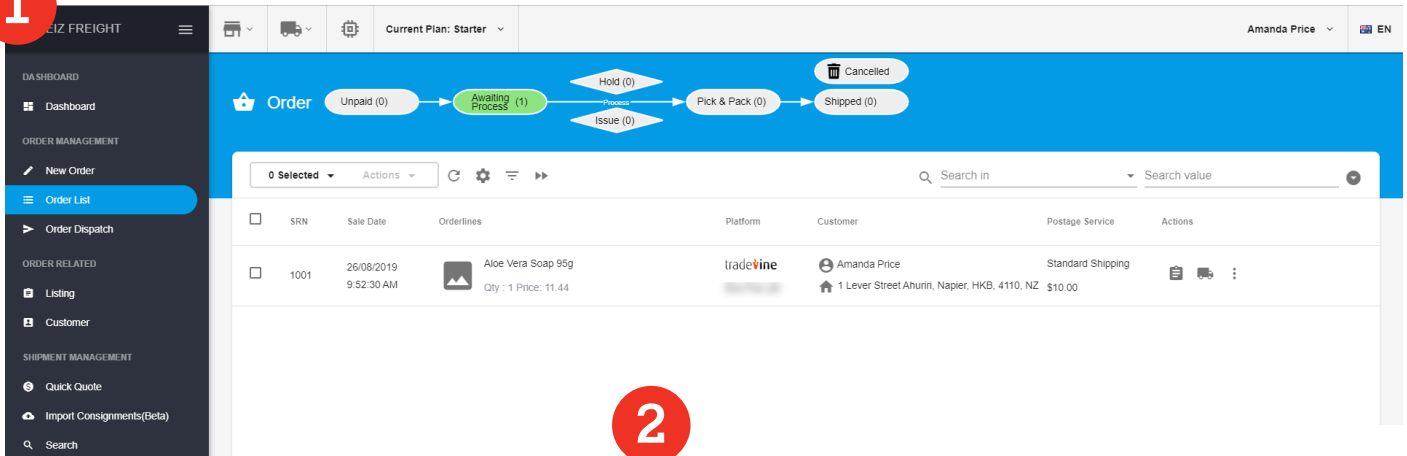

3

Creating labels

Creating shipment labels in EIZ

1

2

1. To create a label for an unfulfilled shipment in the order list, follow the next steps;
2. Click on the van icon on the item line as shown (right)

Postage Service

Actions

Standard Shipping

\$10.00

3

3. Review the shipping details, this should pull through automatically. Ensure that any mandatory fields, including phone number and email address are included. Click 'Continue'.

4

4. Enter any parcel requirements, including the cubic dimensions of the parcel into the relevant fields.

Your fulfillment orders will continue to sync automatically until this process is disabled
