Remember Me [Forgot Password?](#)

LOGIN

[Create an account](#)

EN

1. Enter the details you entered when creating your new account and click 'Login'.
2. If you want the website to remember you, so that you don't have to login every time you access the site, check the 'Remember me' tick box.

Note: The first time you login you'll be directed to the main summary page. Aramex powered by Fastway and EIZ have a customised solution so there is no requirement to upgrade your package.

2

The screenshot shows the EIZ Freight dashboard interface. A system message overlay is displayed in the center, reading: "System message", "Welcome to EIZ Freight", "Dear Amanda Price,", "Welcome to EIZ.", "EIZ.com.au is an eco-system to provide affordable management technology to small and medium size companies. EIZ.com.au integrates with leading marketplaces, shopping-carts and transport companies, also provide online sellers Easy-Use Order and Freight Management System.", "Your current package is Starter, please use this link for more package details or you can upgrade your package there.", "Upgrade Your Package", "EIZ Team". The background dashboard includes a sidebar with navigation options like Dashboard, Orders, and Orders Related. The main content area shows "Consignments" with a "MONTHLY CONSIGNMENT STATISTICS" chart and a "Marketplaces Rank" table.

Your myfastway account

Linking your myfastway account

1

The screenshot shows the MyFastway dashboard interface. At the top, there's a navigation bar with a 'Current Plan: Starter' dropdown and user information 'Amanda Price' and 'EN'. The main content area is divided into several sections:

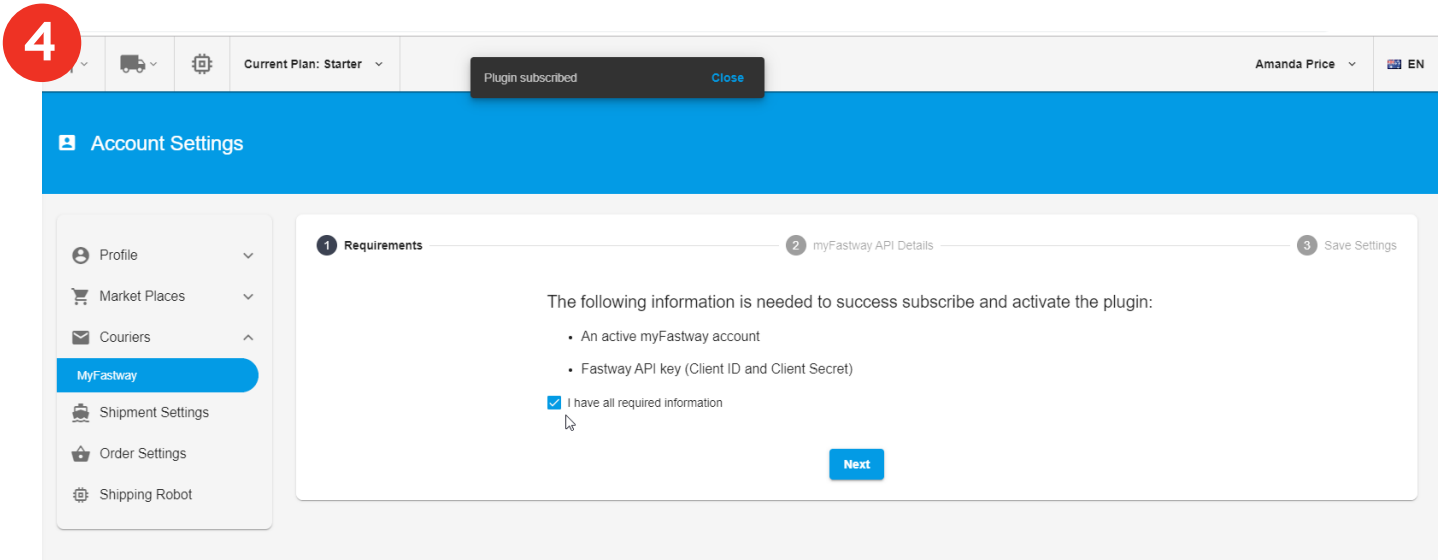

- MONTHLY CONSIGNMENT STATISTICS:** A line chart showing 'Monthly Sales Volume' and 'Monthly Sale Amount' from 2019-01 to 2019-08. A tooltip for '2019-07' is visible, showing 'Consignments Monthly Sales Volume' at 4 and 'Consignments Monthly Sale Amount' at 2.
- Order process status and sales summary:** Includes 'Today waiting Process orders' (1) and 'Today unshipped orders' (0).
- Sales summary:** A table showing sales for different periods.
- Marketplaces Rank:** A bubble chart showing 'Shopify APP' at 100%.
- How much did your customers spend during the last 31 days?:** A progress bar showing 'Total sales amount during the last 31 days' at 30.

1. Login to the EIZ website and navigate to the delivery truck icon > click on myfastway
2. Click 'Install App'
3. Click 'Subscribe'

2

The screenshot shows the MyFastway app installation page. It features the MyFastway logo and the text 'MyFastway integration'. A prominent offer box states 'Free' (was \$) and 'MyFastway is a free add-on' with an 'Install App' button. Below this, a modal window titled 'MyFastway' shows 'Price Free' and a 'Subscribe' button. A red arrow points from step 3 of the list to the 'Subscribe' button in the modal.

3

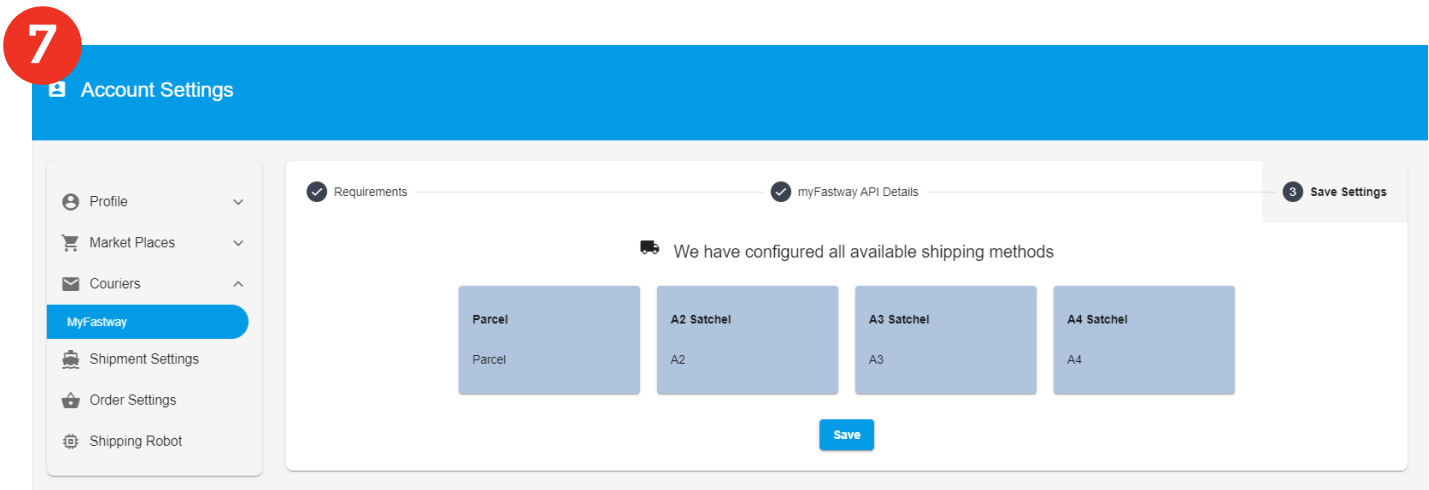

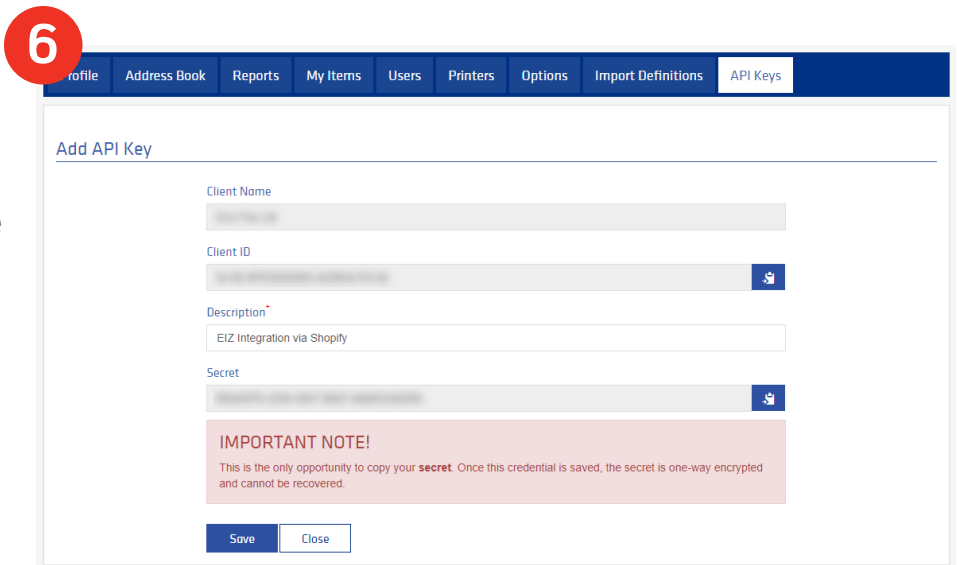

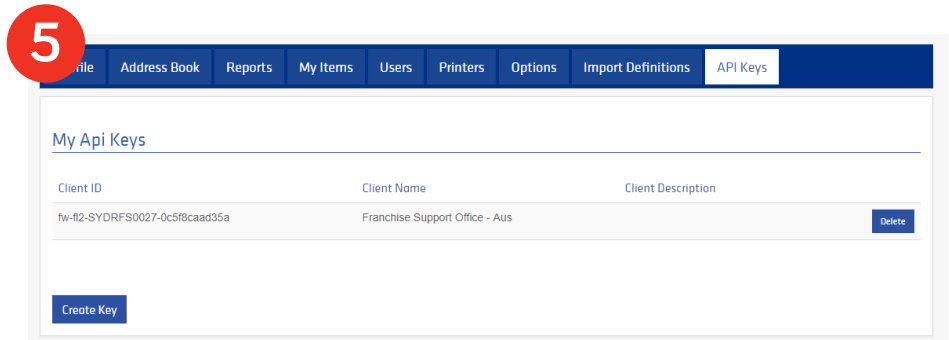

4. If you have your myfastway API client key and secret key available, click next and move to page X.

5. If not, navigate to myfastway.com.au > Administration > API Keys

6. Enter the ClientID and Secret key into the EIZ app and click okay.

7. The app will display the shipping options available to your myfastway account as per the screenshot below, click 'Save'.

WooCommerce

Linking your e-commerce platform

1

The dashboard shows a 'MONTHLY CONSIGNMENT STATISTICS' chart with a line graph for 'Monthly Sales' from October 2018 to September 2019. Below the chart are several data widgets: 'Order process status and sales summary' with 'Today waiting Process orders' and 'Today unshipped orders' both at 1; 'Sales summary' table; and 'Marketplaces Rank' pie chart showing 'Shopify APP - 100%'.

Period	Amount
Today	\$0.00
Last 7 days	\$0.00
Last 31 days	\$76.13
Last 90 days	\$97.57

2

The screenshot shows the WooCommerce website with a prominent 'Free' offer. Below the offer, there is a list of features:

- Real-Time sync orders from Woocommerce
- Quickly find any order with intelligent search technology
- View, edit, print and take complete control of your order management process without missing an order again
- View a range of live shipping quotes in one place
- Auto Upload Tracking to Woocommerce Order.

1. Navigate to the shop drop down icon as pictured (above)
2. Click on the Woo Commerce logo from the icons shown. A summary screen will display as shown (right) click on the 'Install APP' button.
3. Click on the 'Subscribe'

4. When the account settings screen is visible, click the 'Connect to New Store' if you don't have your WooCommerce store name, URL, consumer key and secret key, continue to the next step.

3

The screenshot shows a 'Woocommerce' pop-up window with a 'Subscribe' button. The price is listed as 'Free'.

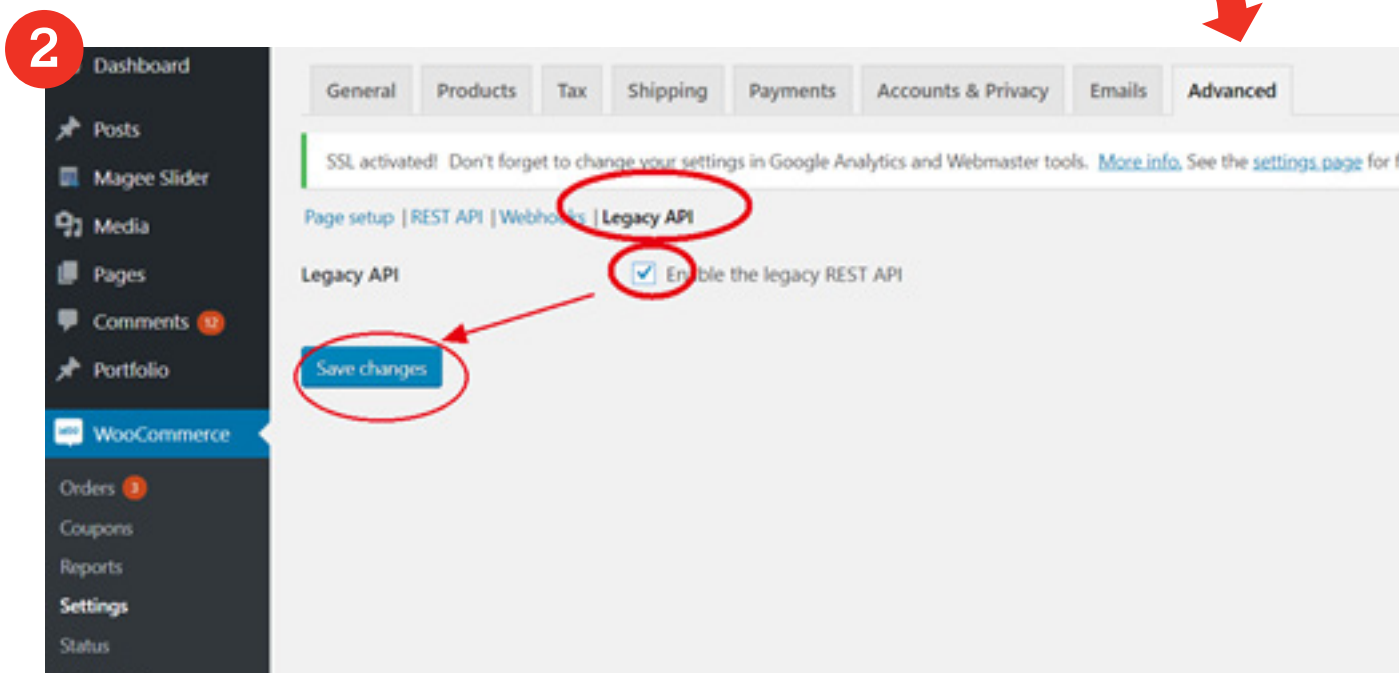

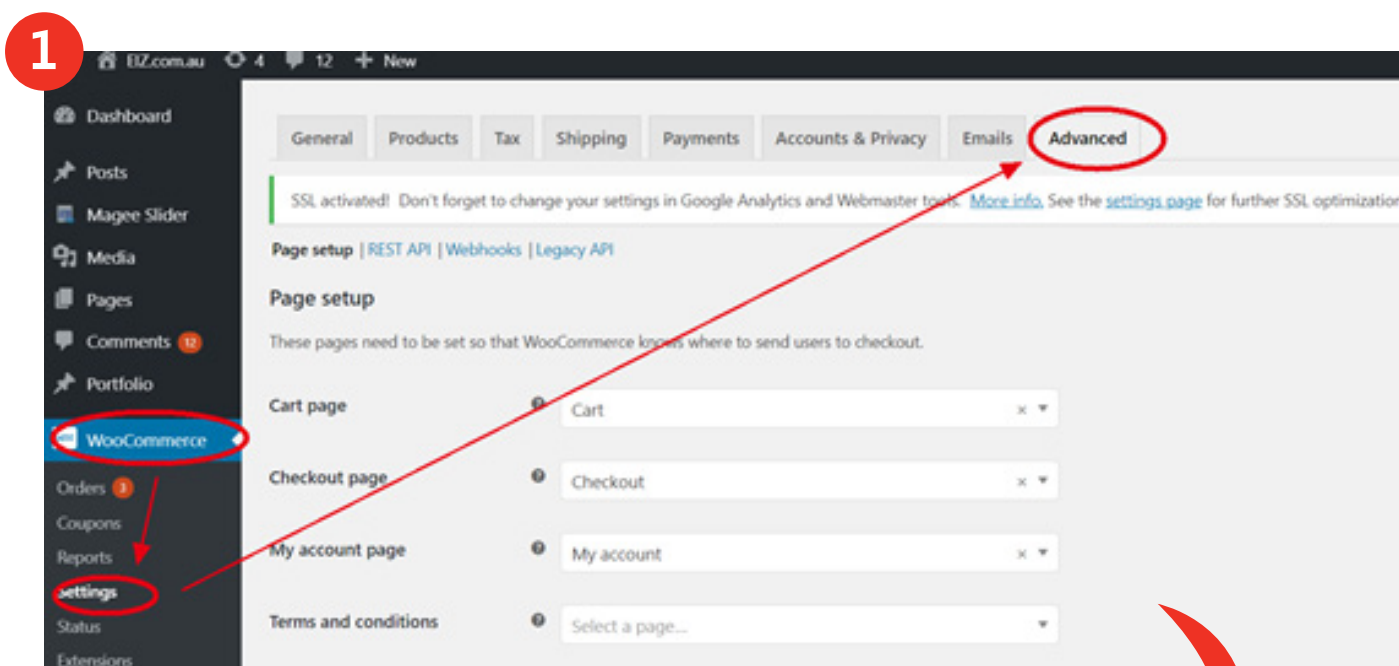

4

The screenshot shows the 'Connect to New Store' screen with a table for store details:

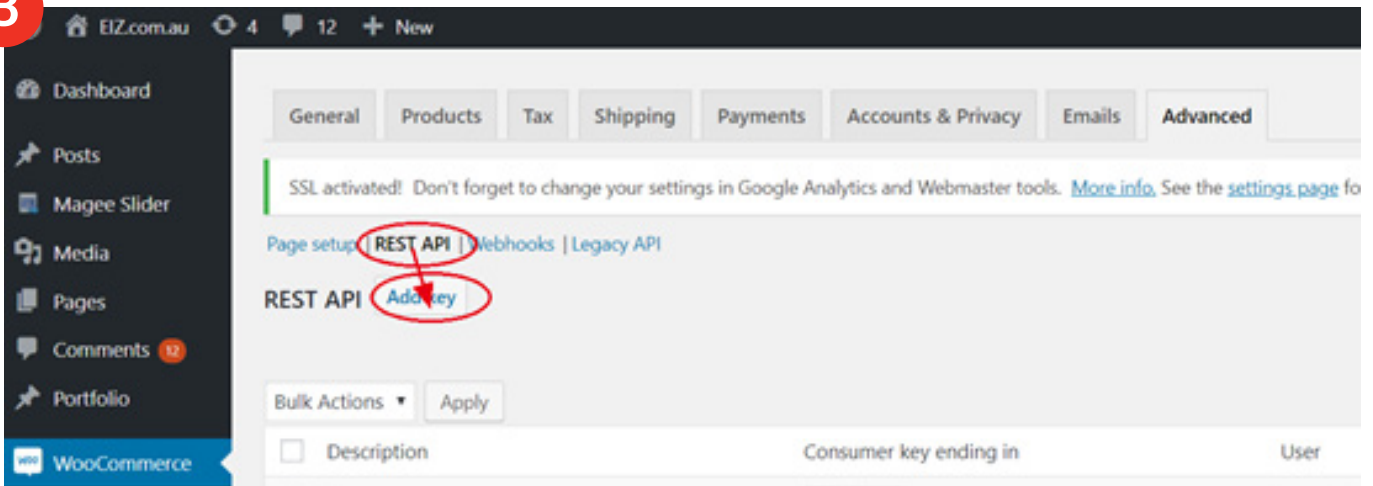

Store Name	URL	Sync Status	Actions
			Connect to New Store

Connecting your API key

1. Login to your WooCommerce account and navigate to the > Settings menu on the left hand side > then click on the 'Advanced' tab.
2. Click on 'Legacy API' > Check the tick box to 'Enable the legacy REST API' and then click 'Save Changes'.
3. Click 'Rest API' then click 'Add Key'.
4. Enter a description of the API project, for example Fastway or EIZ, ensure that both the 'Read/Write' permissions re enabled and then click 'Generate API Key'.
5. Save the consumer key and secret key as once you navigate away from this page, they will be hidden.
6. Navigate back to the EIZ app to complete set up of the integration.

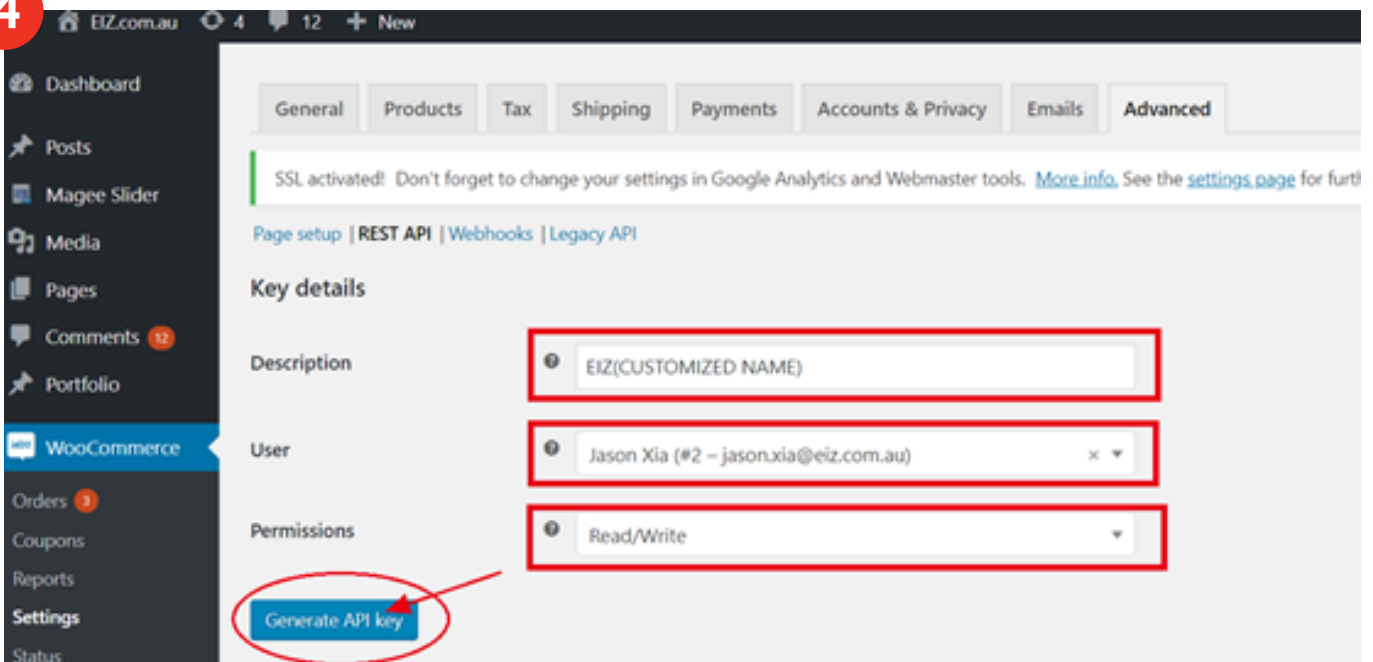

3

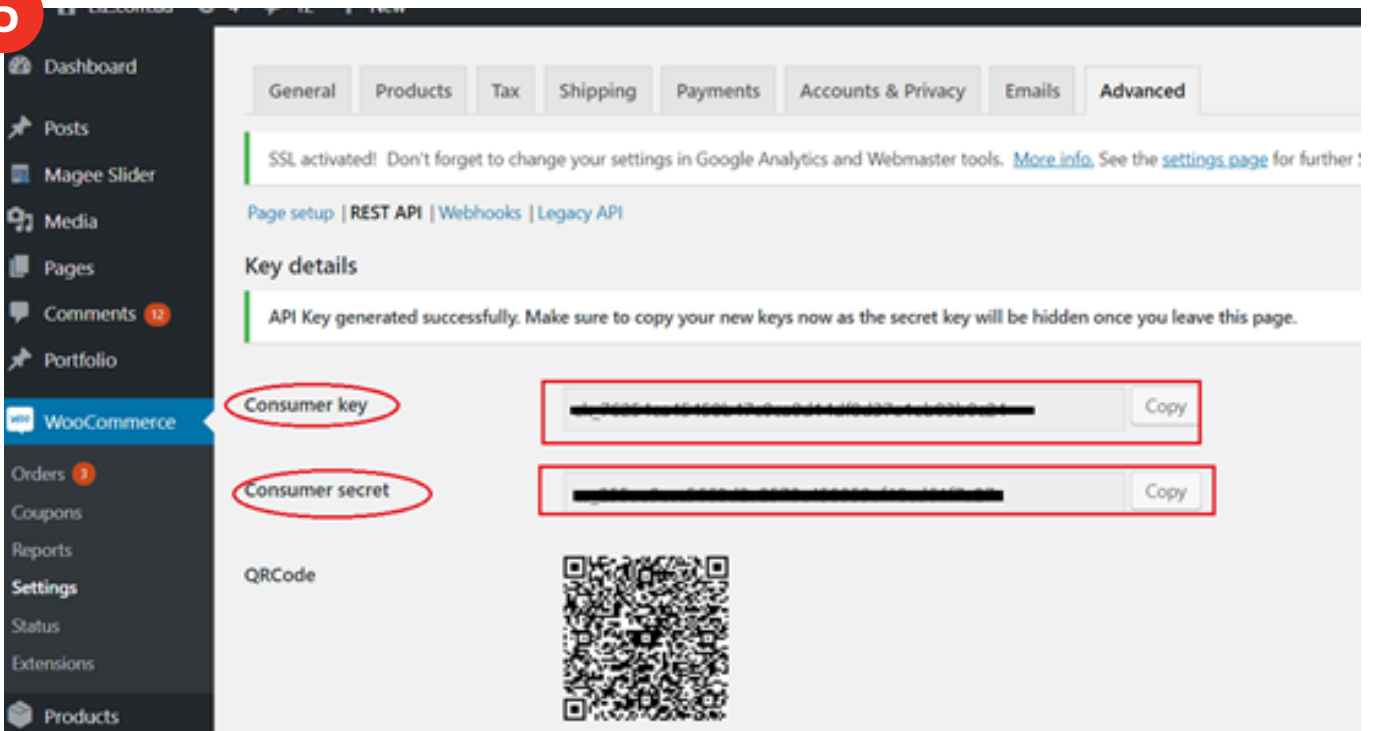

WordPress REST API settings page. The 'REST API' tab is selected. A red circle highlights the 'REST API' tab, and another red circle highlights the 'Add key' button. The 'Bulk Actions' dropdown is set to 'Apply'.

4

REST API key details form. The 'Description' field contains 'EIZ(CUSTOMIZED NAME)'. The 'User' dropdown is set to 'Jason Xia (#2 - jason.xia@eiz.com.au)'. The 'Permissions' dropdown is set to 'Read/Write'. A red circle highlights the 'Generate API key' button.

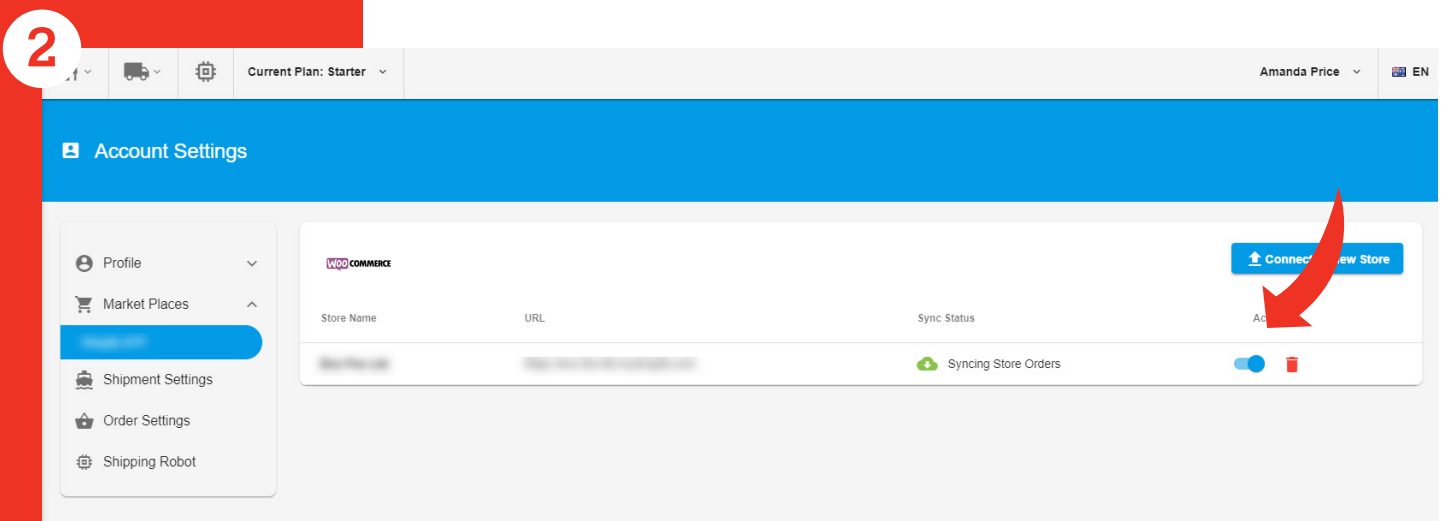

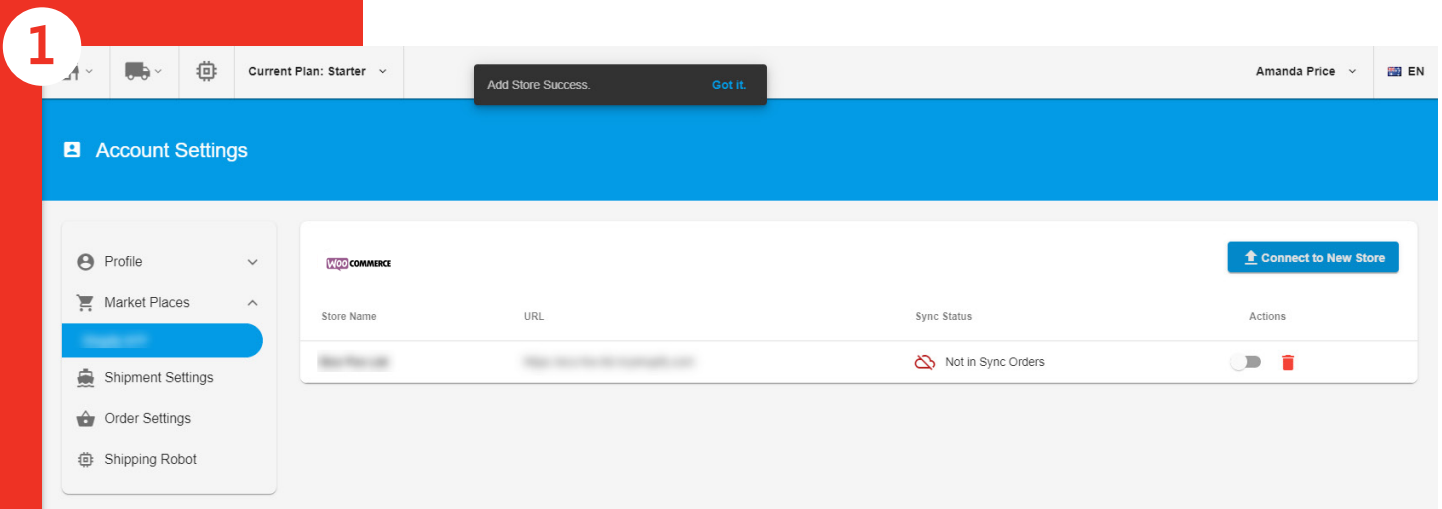

5

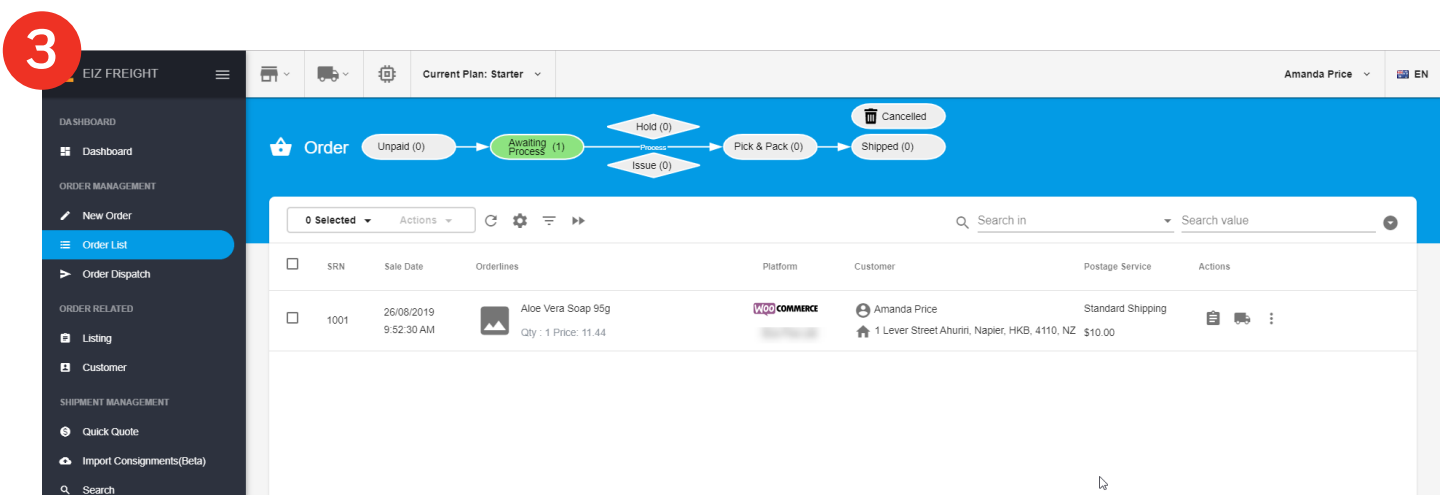

REST API key generation success screen. A message states: 'API Key generated successfully. Make sure to copy your new keys now as the secret key will be hidden once you leave this page.' The 'Consumer key' and 'Consumer secret' fields are highlighted with red circles. A QR code is displayed below the fields.

Syncing transactions

Syncing WooCommerce transactions to EIZ

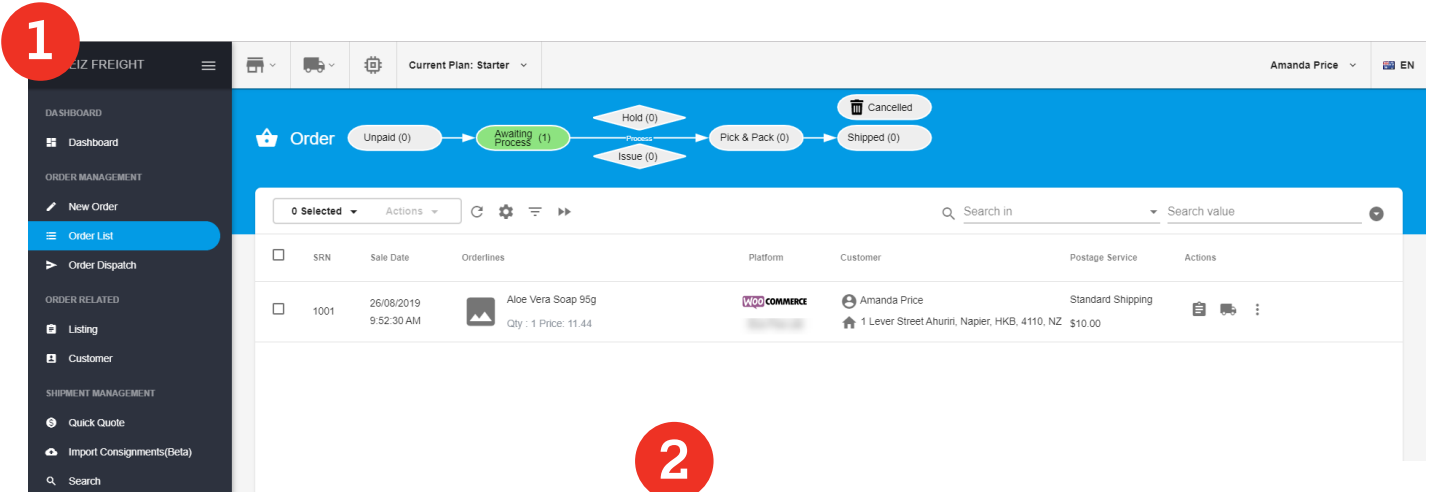

1. Once you've linked WooCommerce to your EIZ account (refer page 5) you can enable the order sync function to pull through your unfulfilled transaction list.
2. To enable the transaction sync, simply enable the slider so that it turns blue. The sync will occur automatically.
3. Your transactions will appear in the Order List as shown (below).

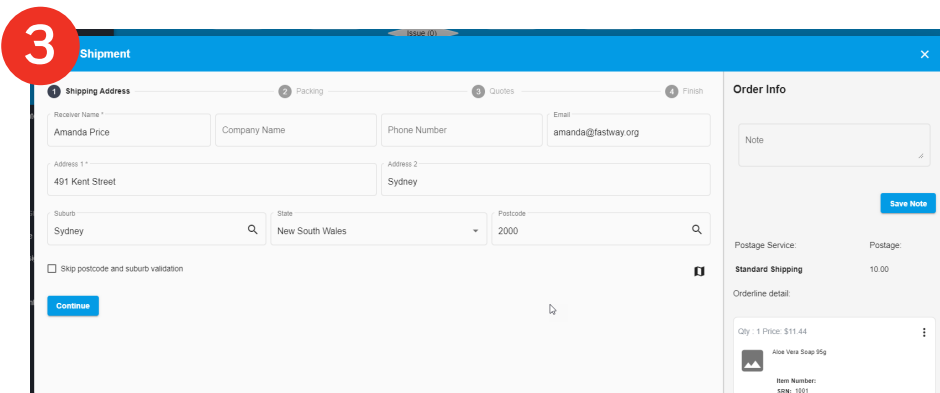

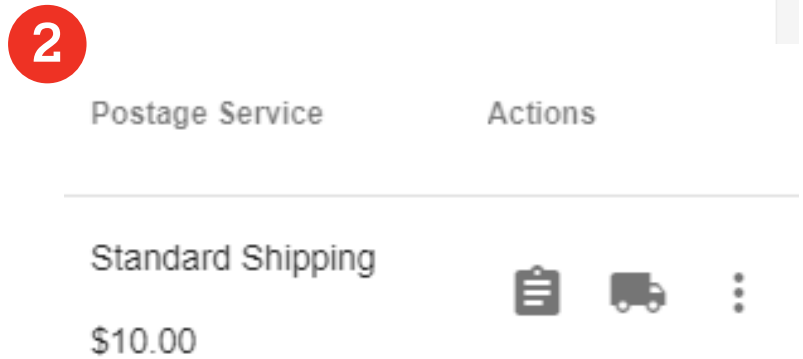

Creating labels

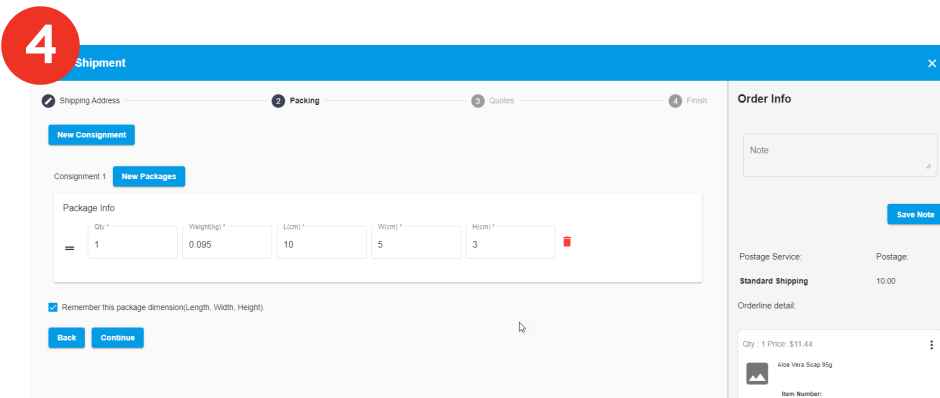

Creating shipment labels in EIZ

1. To create a label for an unfulfilled shipment in the order list, follow the next steps;
2. Click on the van icon on the item line as shown (right)

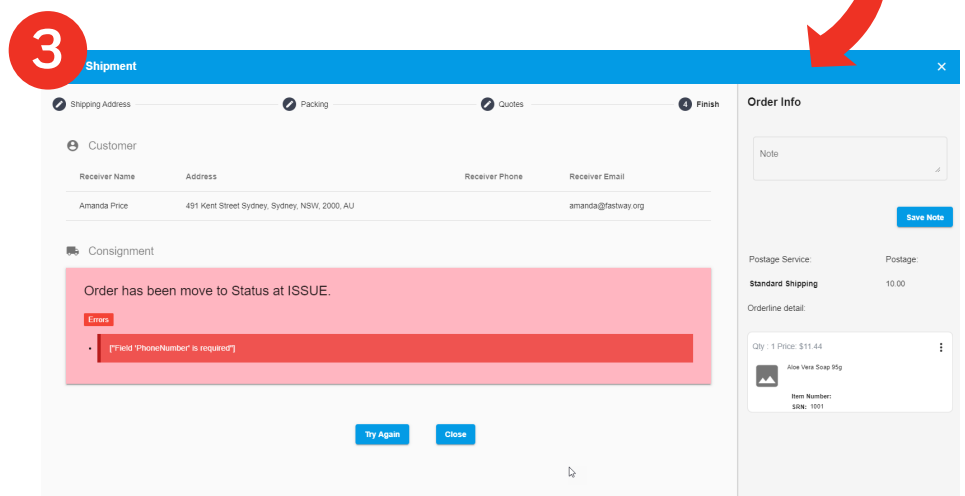

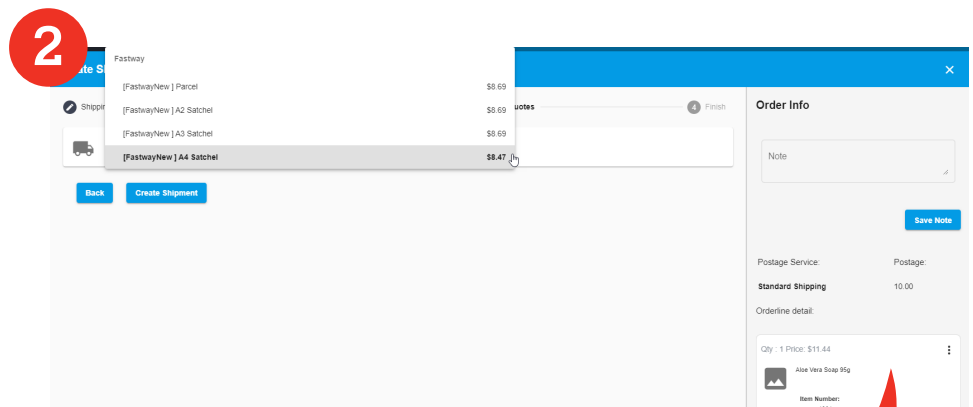

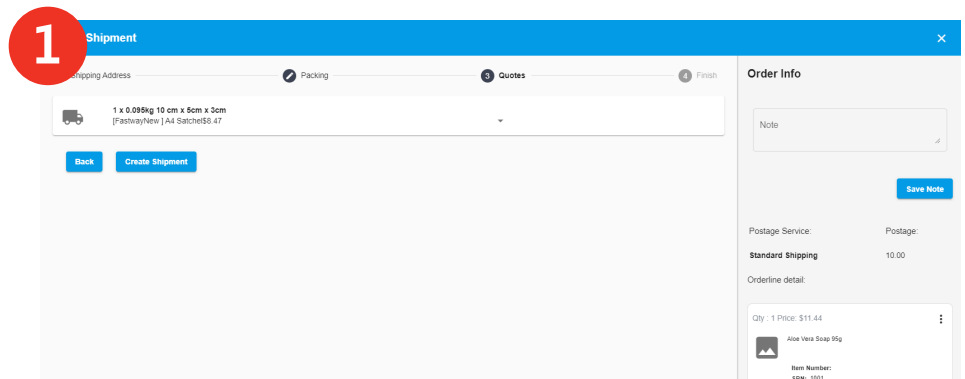

3. Review the shipping details, this should pull through automatically. Ensure that any mandatory fields, including phone number and email address are included. Click 'Continue'.

4. Enter any parcel requirements, including the cubic dimensions of the parcel into the relevant fields.

Your fulfillment orders will continue to sync automatically until this process is disabled

Creating shipment labels in EIZ(cont)

1. The system will automatically allocate the cheapest service for your parcel.
2. To change from a satchel service to a parcel or vice versa use the dropdown box as shown (above) to select a new service and then click 'Create Shipment'.
3. If there are any issues with the consignment or any data that you've entered, the system will prompt you to make changes. Once you have satisfied all the requirements to create a label, move to step 4.
